

June 30, 2005

Gentlemen/Ladies,

I would like to comment on the consideration to change the Telephone Privacy Act. I very much support the act as it is. I live in Indiana and have been very pleased with the results so far. I would urge you to not dilute the act as it presently is by eliminating it or allowing other groups to be exempt from the law as it presently stands.

Thank you for your consideration,

Keith C. Merkel
